The licensee is attempting to provide care to children displaced due to the Camp Fire.

Waiver request: California Code of Regulations, Title 22, Division 12, section 102416.5, subdivision (b), requires that for a Small Family Child Care Home, the maximum number of children for whom care may be provided at any one time, including children under age 10 who reside at the licensee's home, shall be either four infants only, six children, no more than three of which may be infants, or more than six and up to eight, without an adult attendant, only if the criteria in Section 1597.44 of the Health and Safety Code are met. Health and Safety Code section 1597.44 states A small family day care home may provide care for more than six and up to eight children, without an additional adult attendant, if all of the following conditions are met. EMERGENCY CHILD CARE WAIVER REQUEST: CAMP FIRE

EMERGENCY WAIVER

THIS DOCUMENT MUST BE AVAILABLE FOR REVIEW ON THE FACILITY PREMISES

Reason for request: The licensee is currently operating a small Family Child Care Home and would like to provide care to eight preschool children without another adult attendant being present. The licensee is attempting to provide care to preschool age children displaced due to the Camp Fire.

Waiver request: California Code of Regulations, Title 22, Division 12, section 102416.5, subdivision (b), requires that for a Small Family Child Care Home, the maximum number of children for whom care may be provided at any one time, including children under age 10 who reside at the licensee's home, shall be either four infants only, six children, no more than three of which may be infants, or more than six and up to eight, without an adult attendant, only if the criteria in Section 1597.44 of the Health and Safety Code are met.

Health and Safety Code section 1597.44 states a small family day care home may provide care for more than six and up to eight children, without an additional adult attendant, if all of the following conditions are met. At least one child is enrolled in and attending kindergarten or elementary school and a second child is at least six years of age. No more than two infants are cared for during any time when more than six children are cared for. The licensee notifies each parent that the facility is caring for two additional school age children and that there may be up to seven or eight children in the home at one time. The licensee obtains the written consent of the property owner when the family day care home is operated on property that is leased or rented.
